

Allscripts Sunrise Solution Mapping to

ARRA Stage 1

Meaningful Use Requirements for Hospitals (POS 21)

Sunrise Acute Care™ v 5.5 SP1 - Complete EHR and EHR Module

NOTE: For each Hospital Objective, the Allscripts Sunrise Acute Care™ component is required. Any additional integrated components that are required for each Objective also are listed in the table below, except as noted in Objective 10. The table below assumes that the client is deploying version 5.5 Service Pack 1 (SP1) of the applicable solution set and the Allscripts-designated versions of the applicable third party components.

Meaningful Use Description	Hospital Objective	Meaningful Use Measure	Sunrise Acute Care v 5.5 SP1 and additional integrated components of the Sunrise platform
----------------------------	--------------------	------------------------	---

CORE SET

Hospitals (POS 21) - 24 Total Measure Count for "Certified EHR Technology"	1	CPOE - Computerized provider order entry	Use CPOE for medication orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local and professional guidelines	More than 30% of unique patients with at least one medication in their medication list seen by the eligible professional (EP) or admitted to the eligible hospital's or critical access hospital's (CAH's) inpatient or emergency department (POS 21 or 23) have at least one medication order entered using CPOE	Sunrise Acute Care 5.5 SP1, Multum addVantageRX™
	2	Implement drug-drug and drug allergy interaction checks	Implement drug-drug and drug-allergy interaction checks	The EP/eligible hospital/CAH has enabled this functionality for the entire EHR reporting period	Sunrise Acute Care 5.5 SP1, Multum addVantageRX™
	3	Demographics	Record demographics <ul style="list-style-type: none"> • preferred language • gender • race • ethnicity • date of birth • date and preliminary cause of death in the event of mortality in the eligible hospital or CAH 	More than 50% of all unique patients seen by the EP or admitted to the eligible hospital's or CAH's inpatient or emergency department have demographics recorded as structured data	Sunrise Acute Care 5.5 SP1 only
	4	Problem List	Maintain an up-to-date problem list of current and active diagnoses	More than 80% of all unique patients seen by the EP or admitted to the eligible hospital's or CAH's inpatient or emergency department have at least one entry or an indication that no problems are known for the patient recorded as structured data	Sunrise Acute Care 5.5 SP1 only

NOTE: For each Hospital Objective, the Allscripts Sunrise Acute Care™ component is required. Any additional integrated components that are required for each Objective also are listed in the table below, except as noted in Objective 10. The table below assumes that the client is deploying version 5.5 Service Pack 1 (SP1) of the applicable solution set and the Allscripts-designated versions of the applicable third party components.

	Meaningful Use Description	Hospital Objective	Meaningful Use Measure	Sunrise Acute Care v 5.5 SP1 and additional integrated components of the Sunrise platform
5	Medication List	Maintain active medication list	More than 80% of all unique patients seen by the EP or admitted to the eligible hospital's or CAH's inpatient or emergency department have at least one entry (or an indication that the patient is not currently prescribed any medication) recorded as structured data	Sunrise Acute Care 5.5 SP1, RxWriter, Multum addVantageRX™
6	Medication Allergy List	Maintain active medication allergy list	More than 80% of all unique patients seen by the EP or admitted to the eligible hospital's or CAH's inpatient or emergency department have at least one entry (or an indication that the patient has no known medication allergies) recorded as structured data	Sunrise Acute Care 5.5 SP1, Multum addVantageRX™
7	Vital Signs	Record and chart changes in vital signs: <ul style="list-style-type: none"> • Height • Weight • Blood pressure • Calculate and display BMI • Plot and display growth charts for children 2-20 years, including Vital signs 	For more than 50% of all unique patients age 2 and over seen by the EP or admitted to eligible hospital's or CAH's inpatient or emergency department, height, weight and blood pressure are recorded as structured data	Sunrise Acute Care 5.5 SP1 only
8	Smoking Status	Record smoking status for patients 13 years old or older	More than 50% of all unique patients 13 years old or older seen by the EP or admitted to the eligible hospital's or CAH's inpatient or emergency department have smoking status recorded	Sunrise Acute Care 5.5 SP1 only
9	Clinical Decision Support	Implement one clinical decision support rule related to a high priority hospital condition along with the ability to track compliance with that rule	Implement one clinical decision support rule	Sunrise Acute Care 5.5 SP1 only

NOTE: For each Hospital Objective, the Allscripts Sunrise Acute Care™ component is required. Any additional integrated components that are required for each Objective also are listed in the table below, except as noted in Objective 10. The table below assumes that the client is deploying version 5.5 Service Pack 1 (SP1) of the applicable solution set and the Allscripts-designated versions of the applicable third party components.

	Meaningful Use Description	Hospital Objective	Meaningful Use Measure	Sunrise Acute Care v 5.5 SP1 and additional integrated components of the Sunrise platform
10	Calculate and Transmit CMS Quality Measures	Report hospital clinical quality measures to CMS or the States	<p>For 2011, provide aggregate numerator, denominator, and exclusions through attestation as discussed in section II(A)(3) of this final rule</p> <p>For 2012, electronically submit the clinical quality measures as discussed in section II(A)(3) of this final rule</p>	<p>Complete EHR: Sunrise Acute Care 5.5 SP1, RxWriter, Patient Education Log (Pt. Ed Log), Sunrise Wellness/Immunization Manager, Sunrise Clinical Analytics™</p> <p>EHR Module: – this Objective is <u>NOT MET as part of the Allscripts certified EHR Module</u> – use of another duly certified, interoperable product is required to meet this measure.</p>
11	Electronic Copy of Health Information	Provide patients with an electronic copy of their health information (including diagnostic test results, problem list, medication lists, medication allergies, discharge summary, procedures), upon request	More than 50% of all patients of the EP or the inpatient or emergency departments of the eligible hospital or CAH who request an electronic copy of their health information are provided it within 3 business days	Sunrise Acute Care 5.5 SP1, RxWriter, Sunrise Vocabulary Manager***, JUMP DRIVE*
