

Optimize operations. Maximize collections. Do it with the Allscripts® Practice Financial Platform.

The Allscripts Practice Financial Platform fully integrates into Practice Fusion to deliver financial and operational success.

We know being an independent practice can be challenging—but with the right technology partner, it doesn't have to be. With the Allscripts Practice Financial Platform working alongside the Practice Fusion EHR, practices can eliminate manual duplicate patient entry into other billing systems. Practices can leverage the robust capabilities of the Allscripts Practice Financial Platform to optimize operational and financial performance.

The all-in-one pricing package includes:

\$299
per provider
per month
